bereavement

## CENTURION HOSPICE IPU ADMISSION

The In-Patient Unit (IPU) offers palliative care for sixteen patients in six single rooms and two general wards with five beds each. Centurion Hospice provide excellent palliative services for patients with life-limiting and life-threatening illness including cancer, HIV/AIDS, organ failure (heart and lung), end stage dementia and other illnesses that render the patient primarily bed ridden and in the final stages of their life. For information, contact Sr. Desteny Adams on 012 664 6175 or email [desteny@centurion-hospice.care](mailto:desteny@centurion-hospice.care).

## WHAT YOU NEED TO KNOW

---

Facing the decision to enter a hospice or to entrust a loved one's care to a hospice, is difficult. Centurion Hospice understands this and also offers psycho-social and counselling services to patients and their family.

The IPU admits three categories of patients:

1. Patients with a diagnosis of a terminal illness. This includes 2 types of admissions: firstly where the patients has a limited period left to live (typically less than a month) and secondly where a patients needs to be admitted for symptom and pain control and may be discharged once optimum management has been achieved.
2. Patients admitted for respite care (typically for 2 weeks) when families need a break from the duty of care.
3. Patients who are unable to take care of themselves or who cannot be cared for at home AND who are non-ambulant (bedridden) and typically over the age of 65 years. These advanced frail care admissions attract a monthly fee.

Centurion Hospice provides the following services in accordance to the needs of each individual patient:

1. In-patients Medical Care including daily monitoring of vitals (blood pressure, SATS, blood glucose levels etc.)
2. Bed washes and/or assisted showers, sanitation and toilet services
3. Laundry – clothing and linen
4. A regular visit by the Centurion Hospice doctor to monitor the patient and recommend additional medical interventions such as referral to specialists and hospitals. (daily rounds are conducted on weekdays)
5. Three meals per day with snacks served in-between.

The family needs to provide and pay for the following:

1. All prescribed and over-the-counter medication (if we have medicine stock, we MAY provide a once off treatment until the family can make the necessary arrangements)
2. Adult diapers (Centurion Hospice has limited stock at a very affordable price – please enquire)
3. Toiletries
4. Additional visits from your chosen health care provider
5. Transport to and from home, medical treatments, hospital etc. An ambulance service can be arranged with a preferred provider at your cost.
6. Additional snacks and treats particularly requested by the patient
7. If the patient passes away, we will call in a paramedic or a doctor to do the declaration of death at your cost.
8. The removal of the remains. We can recommend a preferred provider, but the final choice remains that of the family.

### IMPORTANT INFORMATION

- Centurion Hospice does not admit smokers.
- All admissions require a negative COVID test no older than 48 hours, except admission that come directly from another medical facility and who has already been tested.
- Visiting hours: 09h00 to 11h00 and 13h00 to 18h00 daily.
- For patients in the terminal phase, visiting hours are extended.
- COVID-19 restrictions are adhered to at all times.
- Centurion Hospice reserves the right to restrict visitation when it is in the best interest of the patient.
- Complaints and comments may be directed to the CEO at [ceo@centurionhospice.com](mailto:ceo@centurionhospice.com).
